

Pacira BioSciences to Participate in Fireside Chat at the 25th Annual Needham Virtual Healthcare Conference

April 08, 2026

BRISBANE, Calif., April 08, 2026 (GLOBE NEWSWIRE) -- Pacira BioSciences, Inc. (Nasdaq: PCRX), the industry leader in its commitment to deliver innovative, non-opioid pain therapies to transform the lives of patients, today announced that it will participate in an analyst-led fireside chat at the 25th Annual Needham Virtual Healthcare Conference at 9:30 AM ET on Wednesday, April 15, 2026.

Live audio of the virtual event can be accessed by visiting the "Events" page of the company's website at investor.pacira.com. A replay of the webcast will also be available for two weeks following the event.

Inducement Grants Under Nasdaq Listing Rule 5635(c)(4)

Pacira today announced the granting of inducement awards on April 2, 2026 to seven new employees under Pacira's Amended and Restated 2014 Inducement Plan (the "Inducement Plan") as a material inducement to each employee's entry into employment with the company. In accordance with Nasdaq Listing Rule 5635(c)(4), the awards were approved by the People & Compensation Committee of the Board of Directors (the "Committee") without stockholder approval.

Two employees received stock options to purchase an aggregate of 5,000 shares of Pacira common stock and seven employees received restricted stock units for an aggregate of 13,000 shares of Pacira common stock. The stock options have a 10-year term and a four-year vesting schedule with 25 percent of the underlying shares vesting on the first anniversary of the recipient's first day of employment and in successive equal quarterly installments over the 36 months thereafter. The stock options have an exercise price of \$22.70 per share, the closing trading price of Pacira common stock on the Nasdaq Global Select Market on the date of grant. Each restricted stock unit represents the contingent right to receive one share of Pacira common stock and the restricted stock unit awards vest annually in four equal installments beginning on April 1, 2027.

Vesting of the equity awards is subject to the employee's continued employment with Pacira. Each equity award is also subject to the terms and conditions of an award agreement.

About Pacira

Pacira delivers innovative, non-opioid pain therapies to transform the lives of patients. Pacira has three commercial-stage non-opioid treatments: EXPAREL® (bupivacaine liposome injectable suspension), a long-acting local analgesic currently approved for infiltration, fascial plane block, and as an interscalene brachial plexus nerve block, an adductor canal nerve block, and a sciatic nerve block in the popliteal fossa for postsurgical pain management; ZILRETTA® (triamcinolone acetonide extended-release injectable suspension), an extended-release, intra-articular injection indicated for the management of osteoarthritis knee pain; and iovera®, a novel, handheld device for delivering immediate, long-acting, drug-free pain control using precise, controlled doses of cold temperature to a targeted nerve. The company is also advancing a pipeline of clinical-stage assets for musculoskeletal pain and adjacencies, its most advanced product candidate, PCRX-201 (enekenragene inzadenovec), a novel locally administered gene therapy in Phase 2 clinical development for osteoarthritis of the knee.
